

# Redo Your Bathrooms Fifty Shades Darker for Valentine's Day

This Valentine's Day really surprise your loved one-how about giving the gift of updating your bathrooms! Well maybe not fifty shades darker, but redecorate with the new trending colour- Deep Dark Green. There's nothing quite like modernising tired or outdated bathrooms to put a smile on a loved one's face. And there's nowhere you can buy excellent quality bathrooms material at a bargain price other than Renovator Auctions.

Deep Dark Green, as opposed to deep, dark Mr. Grey, can seamlessly integrate with many popular modes of bathrooms décor. But, particularly complements retro, geometrical and New Nordic styles. Unless you are a particularly talented designer, Deep Dark Green usually works best if it's used as a focus feature and teamed with white, pale wooden or warmer coloured accessories. Or if it is used to introduce an element of the natural world into urban styled decorating.

Of course, you need to remember one of the best design principles is, if you use a dominating colour, repeat it in a minor form somewhere else in the same room. And this is where Deep Dark Green usually comes into its own, as it teams magnificently with the forest green foliage plants that are becoming an essential part of bathrooms contemporary décor.

You could do the whole 'renovations' thing, and Renovator Auctions certainly usually has a large range of white floating basins, white bathrooms cabinets, and white floor tiles. But realistically if you want to have this update completed by Valentine's Day, you need to get moving on it, so maybe just stick to some small changes, like wall painting, constructing an eye - drawing focal point, or creating tiles feature.

Luckily we recently have had a few listings of green glass tiles in our [home improvements catalogue](#) that would be perfect for bathrooms, so you'd better come in and check out the stock we have before it's all gone.

If you decide that you'd like to make a green feature wall, then it would be a great idea to read our blog [15 Renovated Bathrooms Painting Mistakes and How to Avoid Them](#). Make sure you purchase excellent quality bathrooms paint, and yes, we do have bargain priced paint listed at Renovator Auctions [building materials catalogue](#) from time to time. Always make sure you prepare the wall you'd like to be a feature, and painter's tape all the edges of the area you're going to paint. There's no quicker way to have a high-quality painting result than by sectioning off areas by using painter's tape.

If you're looking at the calendar and thinking, hmmm, don't think I've got enough time (or skills) to give our bathrooms a makeover, maybe we can think of some more, 'cosmetic approaches'.
